## SUMMARY

Flutter Developer with experience building and shipping production mobile applications for Android and iOS. Experienced in business communication platforms, CRM and lead management systems, WhatsApp automation, REST APIs, WebSockets, webhooks, third-party integrations, state management, performance optimization, and mobile application deployment.

## EXPERIENCE

**Pro Housy Point Tech Solution Pvt. Ltd.** July 2025 – Present

*Technical Lead – Mobile Applications*

- Lead mobile application development across architecture, feature implementation, API integration, debugging, performance optimization, and production releases.
- Developed and maintained production applications including **Inlobo**, **Housypoint**, and **Workfina** across Android and iOS.
- Built business communication and CRM features including WhatsApp automation, lead management, real-time communication, calling, notifications, analytics, and workflow automation.
- Integrated REST APIs, WebSockets, webhooks, Firebase FCM, third-party services, and backend systems to support production mobile workflows.
- Collaborate on AI-driven solutions including AI Calling Agent development, workflow automation, and integration with existing products.
- Manage technical support escalations, production debugging, application performance, and customer-impacting issues.
- Handle the complete Android and iOS deployment lifecycle including Play Store, App Store releases, versioning, and production updates.

## INTERNSHIPS

**Pro Housy Point Tech Solution Pvt. Ltd.** Dec 2024 – June 2025

*Flutter Developer Intern*

- Developed Flutter applications focused on real estate and business workflows.
- Implemented responsive UI, REST API integration, state management, debugging, and production-ready mobile features.
- Worked with backend APIs and collaborated on feature implementation, testing, and application deployment.

**Linux World Informatics Pvt. Ltd.** April 2023 – July 2023

*AWS Cloud Computing*

- Developed and deployed applications using Docker on AWS EC2.
- Configured AWS API Gateway for microservice integrations.
- Managed Amazon S3 storage and CloudWatch monitoring.

## EDUCATION

**Master of Computer Application** July 2023 – June 2025

K.R. Mangalam University Sohna, Gurugram, Haryana

**Bachelor of Computer Science** Aug 2018 – May 2021

DauDayal Institute of Vocational Education Khandari, Agra, Uttar Pradesh

## PROJECTS

### Inlobo – B2B WhatsApp CRM & Lead Management (Flutter + Django)

Production SaaS platform for WhatsApp-based customer communication, lead management, automation, and sales workflows. Published on Google Play and Apple App Store.

Play Store — App Store

- Built real-time WhatsApp communication workflows using Flutter, WebSockets, and backend APIs.
- Developed WhatsApp automation features including campaigns, broadcast messaging, templates, auto-replies, and canned responses.
- Integrated multiple lead sources including Meta, Google Ads, 99acres, Justdial, custom websites, and custom applications using APIs and webhooks.
- Implemented lead management, lead assignment, access control, team management, notifications, calling, and analytics workflows.
- Integrated Django REST Framework, PostgreSQL, Firebase FCM, and secure authentication services.
- Optimized API communication, application performance, and real-time data handling for production environments.

### Housypoint Mobile App – Real Estate Platform (Flutter)

Production real estate application for property discovery, buying, renting, and user engagement. Published on Google Play and Apple App Store.

Play Store — App Store

- Developed and deployed production-grade Flutter applications for Android and iOS.
- Implemented property listing, search, filters, shortlist, property details, and user interaction workflows.
- Integrated REST APIs for authentication, dynamic property data, user interactions, and backend communication.
- Improved application performance through efficient state management, optimized UI rendering, and network communication.

### Workfina – Recruitment Marketplace (Flutter + Django)

Full-stack recruitment platform connecting job seekers and recruiters through a credit-based hiring system.

- Built candidate and recruiter workflows with JWT authentication and role-based access.
- Integrated Razorpay for subscription plans, wallet management, and credit-based profile unlocking.
- Developed candidate ranking based on profile completion, experience, education, and verification metrics.
- Built backend services using Django REST Framework and PostgreSQL.

## SKILLS

**Mobile Development:** Flutter, Dart, Android, iOS, State Management, Mobile Architecture

**Backend & APIs:** Python, Django, Django REST Framework, REST APIs, WebSockets, Webhooks

**Integrations:** WhatsApp Business APIs, Meta APIs, Google Ads, 99acres, Justdial, Firebase FCM, Razorpay

**Database & Cloud:** PostgreSQL, Firebase, SQLite, AWS Cloud

**Tools & Deployment:** Git, GitHub, Play Store Deployment, App Store Deployment

**Languages:** Hindi, English
